

FILL-SECTION WALLS	
<b>EXTERNALLY STABILIZED</b>	<b>INTERNALLY STABILIZED</b>
Rigid Gravity and Semi-Gravity Walls: Cast-in-Place Concrete Gravity Wall Cast-in-Place Concrete Cantilever / Counterfort Wall	Retaining Walls with Reinforced Backfill: Segmental, Precast Facing Mechanically Stabilized Earth Wall Prefabricated Modular Block Facing With Soil Reinforcement Geotextile / Geogrid / Welded Wire Facing MSE Wall
Prefabricated Modular Gravity Walls: Crib Wall Bin Wall Gabion Wall	Reinforced Soil Slopes
CUT-SECTION WALLS	
<b>EXTERNALLY STABILIZED</b>	<b>INTERNALLY STABILIZED</b>
Nongravity Cantilevered Walls: Sheet Pile Wall Soldier Pile and Lagging Wall	In-Situ Reinforced Walls: Soil Nailed Wall
Anchored Walls: Ground Anchor (Tieback) Deadman Anchor	

**CLASSIFICATION OF EARTH RETAINING SYSTEMS**
