

Diagram of a bent reinforcement bar. The bar has a total length of 1170. It is bent into a U-shape with two vertical legs, each 165 units high. The top horizontal segments are 115 units long. A note with an arrow points to the bar: "USE 50 Ø PIN FOR BENDING". Below the bar, the value $\ast \underline{1303}$ is written.

* DENOTES EPOXY COATED
